The Light Source
Atlas Mic Stand Adapter

The Atlas Mic Stand Adapter will hold a microphone mount and threads into most clamps. The Atlas Mic Stand Adapter is CNC machined out of steel with a hex head for tightening. Standard 5/8"-27 Atlas threads at one end with a 1/2"-13 x 3/4" stud at the other. Two versions are available, one with male Atlas threads, and one with female Atlas threads.

The Atlas Mic Stand Adapter will easily thread into a Mega-Clamp or a Mega-Drop Down for audience response microphone positioning.
