Mega-Truss Pick for Threaded Rod Installations

12" Threaded Rod Truss Pick pictured above -

Two 1" x 2" x 15" 6061T-6 aluminum bars CNC machined with pockets to support one piece of 12" truss. The Mega-Truss Pick will suspend up to one ton of truss load when the Mega-Truss Pick is suspended by two customer supplied 1/2" threaded rods, or two 1/2" forged steel shoulder eyebolts fastened through the outside support holes. All of the holes are through holes without threading. Secure the threaded rod with a nut and washers above and use a nyloc nuts with a USS washer below the truss pick.

Rigging from only the center hole de-rates the Threaded Rod Truss Pick to 250 pounds capacity.

Priced per pair.

Available in 12", 16", 18", 20.5" sizes.
11.4375" for Global Truss.

The WLL applies to all sizes.

Working Load

Limit 2000 lbs with two outside 1/2" threaded rods

Dimensions

1" x 2" x 21" (18 inch) 1" x 2" x 15" (12 inch)

Weight

12" - 5 lbs. 18" - 7 lbs.

Case Quantities

each pair
