

The Light Source

XL Series: Mega-Gridlock Diagonal XL

The new Mega-Gridlock Diagonal XL provides a solution for pipes that need to cross at varying angles. Multiple curved slots allow for precise positioning from 0° to 90°. The Mega-Gridlock Diagonal XL works with 2 bolts or 4 bolts, depending upon the configuration of the pipes. With 4 bolts installed, the WLL is 800 lbs. The Mega-Gridlock Diagonal XL is a great option for versatility as well as accuracy in pipe installations.

Sized for 1-1/4" (1.66" OD) or 1-1/2" (1.9" OD) pipes.

An additional option is the diagonal plate combined with a standard Mega-gridlock.

**Working Load
Limit**

400 Pounds w/2 Bolts; 800 Pounds w/4 Bolts

Weight

1.74 lbs.
